

Mecayle Gamba

Entry-level Full Stack Web Developer

Mecayle Gamba

57a Rooihout Street, Bonteheuwel

Cape Town, 8000

067 603 5110

mecayleg@gmail.com

<https://github.com/MecayleG>

I am a young enthusiastic learner who has experience in administration and customer service but would like to broaden my knowledge in terms of technology and programming. I spend most of my free time bettering myself as an individual and trying things I haven't done before. I enjoy doing front-end development but I would really like to continue learning the full stack of web development in more context and learn more languages.

Education

Project Codex / Entry-level full stack web developer

February 2020 - December 2020, Cape Town

Doing a 1 year course to gain skills to become an entry-level full stack web developer.
